Brightleaf Opens Second Client Operations Center

Inaugurates new facility based in Pune, India, plans to double its staff

Brookline, MA – Brightleaf Solutions, Inc. today announced that they have opened their second services center in India and doubled their India-based staff.

“This gives us much greater flexibility.” stated Samir Bhatia, Brightleaf CEO. “Coming within months of opening our first center in New Delhi, we now can tap an ever bigger pool of legal and business talent for our growing base of customers.”

Located at 17, Sadanand Society, Bibwewadi, Pune 411037 India, the facility has an initial staff of 14, and is slated to more than double that within the next 90 days.

The office will be overseen by Pardha Sai, Brightleaf’s Director of Client Delivery. According to Pardha, “This gives us a lot of room to grow and with regards to our New Delhi center, it provides redundancy for business continuity. That’s important to large enterprise clients who are depending on us.”

“We’re attracting some great resources and have implemented a detailed on-boarding process to get our new hires trained and productive as quickly as possible. This facility immediately doubles our staff and we will double it again in the coming months. These are skilled lawyers and business analysts who are providing quality assurance support for the automated contract abstraction service we deliver to clients around the globe.” said Pardha.

ABOUT BRIGHTLEAF SOLUTIONS, INC.

Big data, business intelligence (BI), and data driven decisions are having a profound effect on U.S. business operations, becoming a \$143B market in 2016. Brightleaf’s vision is to accelerate this adoption with technology that overcomes the challenge of mining important information from unstructured, text-based documents and making it accessible.

With an initial focus on executed legal contracts, Brightleaf opens new doors for companies to manage risk, ensure regulatory compliance, meet customer obligations, and get meaningful insight into their customer, partner, and vendor behavior.
