# **Brightleaf Solutions Moves its Pune Operations to a New Location**

## **Company's new office space supports its current and future planned capacity growth**

Brookline, MA – Brightleaf Solutions, Inc., a services company providing six sigma quality data mining of unstructured data from contracts, has moved to a new state-of-the art office space. The growth of the company, and a strong desire to increase efficiency by leveraging new infrastructure, has prompted the move.

“The new office space will allow us to increase our capabilities in key areas while building the foundation for our future expansion plans. The new location affords better access to advanced infrastructure, enabling more efficient operations and client-interface, and better security management, consistent with ISO 27001 security standards”, said Samir Bhatia, CEO of Brightleaf Solutions.

Brightleaf provides an end-to-end solution to clients to extract information from their contracts. Our clients typically want to install a Contract Lifecycle System to get a handle around their contracts. In order for the investment in these systems to be meaningful and adopted by users, Brightleaf extracts all the salient information from the client's contracts, and populates these systems with these extracted meta-data elements/attributes. The systems then allow for smart query, reporting and triggers on this data. Brightleaf's technology enabled service coupled with six-sigma processes and a team of expert legal personnel, allows delivery of highly accurate results, a must when clients rely on the data for compliance, revenue-finding and risk mitigation needs.

The New Location is:

4th Floor, Marisoft-1,  
Marigold IT Park, Kalyani Nagar,  
Pune-411014, Maharashtra.

### **ABOUT BRIGHTLEAF SOLUTIONS, INC.**

Big data, BI, and data driven decisions are having a profound effect on U.S. business operations, becoming a \$143B market in 2016. Brightleaf's vision is to accelerate this adoption with technology that overcomes the otherwise

laborious labor intensive and error prone challenge of mining important information from unstructured, text-based documents and making it accessible.

Brightleaf Solutions is a minority-owned, Boston-based technology start-up. With an initial focus on executed legal contracts, Brightleaf opens new doors for companies to manage risk, ensure regulatory compliance, meet customer obligations, uncover missed revenue, and get meaningful insight into their customer, partner, and vendor behavior.
