Brightleaf Solutions Announces Successful Completion of Significant Extraction Projects Across Healthcare and Education Sectors in 2024

Brookline, MA – Brightleaf Solutions, Inc., Brightleaf Solutions, a leading provider of AI-powered contract data extraction services, is proud to announce the successful completion of multiple significant projects in the healthcare and education sectors.

Brightleaf Solutions leveraged its cutting-edge technology and expert team to meticulously extract and analyze critical contract data, ensuring compliance, risk management, and operational efficiency for its clients. These projects highlight Brightleaf's commitment to delivering precise, reliable, and efficient data extraction solutions tailored to the specific needs of diverse industries.

Brightleaf collaborated with these major healthcare provider and universities to extract and organize extensive contract data, enhancing their compliance and risk management processes. The projects involved extracting key terms, obligations, and important dates and contract clauses ensuring the company could manage their contracts more effectively.

The projects involved extracting critical information from various types of contracts, including:

Healthcare: Cooperative Research & Development Agreements (CRADA), Sponsorship/Grants, and Clinical Trial Agreements (CTAs), etc. capturing some of the important attributes like Title of Agreement, Contract or Agreement Number, Aggregate Spend, Scientific Advisory Board, etc.

Education: Affiliation Agreements, Research Agreements, Licensing Agreement/Copyright, Memorandum of Understanding, etc. with attributes captured as Contract Type, Term Type, Contract Purpose, Legacy Contract Number, Parent Document Effective Date, etc.

"We are thrilled to announce the successful completion of these extraction projects. Our ability to serve diverse industries like healthcare and education showcases the versatility and robustness of our AI-powered solutions. We remain committed to helping organizations unlock the full potential of their contract data." said Brightleaf CEO, Samir Bhatia.

The successful completion of these projects underscores Brightleaf's expertise in handling complex contract data extraction tasks and its dedication to providing top-notch services to its clients. Brightleaf Solutions continues to innovate and expand its capabilities to meet the evolving needs of various industries.

ABOUT BRIGHTLEAF SOLUTIONS, INC.

Brightleaf provides a technology-powered service to extract data from your contracts with extreme accuracy using our own proprietary AI/Semantic Intelligence/Natural Language Processing technology, our team of lawyers to check the output and our Six Sigma process.

Your legacy contractual documents along with this extracted meta-data can be migrated into a Contract Lifecycle Management (CLM) system for tracking and reporting. This greatly enhances the value of your investment in the system. The data can be virtually anything, and it is customized for each of your types of contracts. All meta-data, terms and conditions, legal provisions, and even all obligations (which are usually scattered throughout your contracts) are extracted by our software. Our team of lawyers checks each-and- every extracted data point against the original documents using a stringent Six-Sigma quality process, which delivers highly accurate results.

Brightleaf gets recognized very often, including "Company of the Year" as a Contract Management Services provider. Details of this and other recognitions and awards can be found at www.brightleaf.com/awards-recognitions
